**The Jamaica  
Statistical Society  
(JSS)**

---

**Statistics  
Guiding  
Decisions**

---

## Mission:

The Mission of The Jamaica Statistical Society is to:

- ◆ Foster and encourage the growth, development and application of statistics in all areas to make reliable informed decisions
- ◆ Facilitate the use of statistical applications to provide valid explanations of relationships between variables
- ◆ Serve the interest of all persons participating in data analysis by providing myriad of continuous education opportunities through workshops and seminars
- ◆ Promote the public understanding of the importance of safeguarding the reliability of data as well as support education and training in statistics at the undergraduate and postgraduate levels.

## Our Activities:

- ◆ Regular Members' meetings
- ◆ Workshops
- ◆ Symposia
- ◆ Showcasing career advancement opportunities
- ◆ Networking

The JSS conducts activities quarterly, annually and biennially. Members meetings are usually held quarterly; Workshops are held annually and Symposia are held biennially. All these activities are held at different locations in Jamaica. The JSS has provided training in statistical computing, data management and data analysis for persons from the private and public sectors.

## What is the JSS?

The JSS was launched November 1, 2013 at the close of the first biennial Jamaica Statistics Symposium, held October 31-November 1, 2013. The JSS is committed to providing support for valid and reliable data analysis to aid informed decision-making. It fills a local need for additional exposure to training in and appropriate use of statistical methodology.

## Who should join The Jamaica Statistical Society:

All researchers, tertiary level students, professionals in the private and public sector and any person who needs to use evidence provided by data to guide the management of processes within their organisations should join. Members will be exposed to information that will begin to equip them for distilling evidence from data, carrying out the relevant analyses and effecting the appropriate knowledge translation.

## Services:

The Society's over-arching goal is to become a key player in upholding and advancing high standards of statistical competence by providing consultative and training services to statisticians and data analysts in the private and government sectors as well as other individuals working with data.

## JSS Provides:

- ◆ Excellent networking opportunities
- ◆ Exposure to statistical data analysis and data management.
- ◆ Collaborative learning & mentorship among a wide network of experts in the field.

## Why Join the JSS?

### Benefits

- Reduced registration fee on all JSS events
- Update on career development in the profession of statistics.
- Update on development in the world of statistics.
- Information on job opportunities in the field of statistics.
- Access to a network of experts in the field of statistics.
